

Jayantiben's sharings at Kingston

Angels

Angels are protectors

Angels have no memories – they finish their work and move on and do not hang around.

Angels are God's messengers.

Angels have no gender – they are neither male nor female

Angels have no mouth or ears

Angels are beyond this world, not of this world.

Angels are beings of light, not of flesh and bones

Angels are those who have no relationship with human beings

Angels know no barriers – they can walk through walls and barriers – they can overcome any problem as they are always beyond the corporeal

Angels carry no burdens, no obstacles, no responsibilities.

Brahma Baba is the king of angels. Angels are beings of light who have a costume of light. Angels have no connection with human beings and are the direct creation of God. Angels don't have physical parents. Until you become an angel from a Brahmin, you cannot become a deity.

I once went to a Mind and Body exhibition years ago and one of the stalls was about angels, and they had the question: Have you seen an angel? I was curious and went to find out more, and they had a little cabin with curtains drawn and you had to go into the cabin to meet the angel. As you step in, you see a mirror and you see the angel.

How many of you believe that you can become angels? How many of you believe that you can't become angels. In fact, human beings are numberwise, deities are numberwise, but angels are all equal. Each one is an angel. People use the terminology – Be an angel and do me a favour. Then it is guaranteed that the person you ask will be inspired to do it because you touch a cord of memory of their higher self. If you ask a person, it is debatable whether they will do it, but angels will always carry out a task they are asked to.

If I have a connection with human beings, there will be karmic accounts. Then my give and take with human beings is never completely balanced. If I'm settling my karma under God's instruction, then I am on my way to becoming an angel. To become an angel, I have to let go of the human consciousness. Let me finish my karmic accounts with human beings and I can become an angel. The more I think of myself as an angel, and the more I have the desire to experience that higher stage, the more possible it will become to achieve it. If you set yourself a goal, there is possibility of achieving it, but if you don't set a goal, how can you achieve anything?

Angels are those who even work in dreams. How is this possible? Sometimes people say that you came in my dreams. It doesn't mean you go in their dreams and carry out mundane work. One is a powerful dream of seeing the higher beings, the angels, the Dadis, where you are empowered. Another dream is where you are inspired by the dream. Another dream is where you are inspiring or helping others.

In early days, dreams were of ethereal quality, of elevated things, of angels, higher beings, but in today's world, our language, our dreams have become of devalued to a material level – for instance, "I was dreaming of chocolate cake!" Instead of powerful dreams, people have mundane dreams.

There's a lovely expression – "If you don't dream, how can your dreams come true?"

Most of the time we forget our dreams, but Dadi remembers her dreams very vividly, as she says: Dreams are a reflection of our own sanskars. There can be dreams in which you're given inspiration. For instance, some people dream of the Dadis and get a very great boost spiritually. Another type of dream is where people dream of serving others and giving others spiritual benefit. At one time Dadi in 1982 was so ill that

she could not even go down the stairs, but could only go to Baba's room from her bedroom for amrit vela and then back to her room, so she used to give class for 7-8mins at 4.45 am and people used to come to listen. In those days, Dadi would feel that Baba was using her while she was lying in bed, and at the end of it, she would just feel content. In that year, I travelled a lot and many people said they had dreamt of Dadi and that she came and uplifted them, or helped them sort out a problem. So, Baba was using the soul to serve others through dreams – via Dadi's angelic stage in a subtle way. Dadi would say that Baba had used her to serve others – she wouldn't know where she had been but she knew she had been to serve others in the angelic form, and the result of that would be contentment in the self, even though she wasn't well.

So, how does this work? Sitting in silence, you are able to awaken the memory of being this previously. Everything is recorded in the soul, and memories are there which just need to be re-awakened. Let Baba and Baba's presence help you to renounce body consciousness so that you are able to put on your costume of light. The more you do this – shedding body consciousness and wearing the costume of light, the easier it becomes. Baba will be able to use you and give the message of love, light and peace to whoever whenever necessary and you will be blessed for it. Angels do not need acknowledgement for anything. Whoever angels serve, those souls come closer to God.

During Christmas holidays, Brahmins don't need to go shopping and so all of this time can be spend on practising these things. The more I practise it, the closer I bring that into reality. It is not a holiday, but a Holy day to become the angels.

1st step – Soul consciousness – become aware of the self as a being of light.

2nd step – Detach yourself from this body

3rd step – Visualise the costume of light and wear that, a being of light only.

Different people need different things at different times. They need power more than love, Baba knows what it is they need, so tune yourself with Baba in that costume of light and you will serve whoever needs to be served. Angels are able to fly through walls or anything, so they have no obstacles. Yes the physical body will be stopped by walls – but in the angelic form, angels know no barriers are they travel through walls and obstacles.

Dadi said she never used to know what the English word – Stuck – meant. And so she told someone – Just go deep within and check to see what is making you remain stuck. In the angelic stage, nothing is a barrier, and so you can never be stuck.

If there's a challenging situation your involved with and you are stuck in it, then the story of karma gets more and more complex. However, in that awareness of a being of light with Baba, you will find the solution to make things run smoothly.

I have to remain up above and not be stuck here in the mundane world.

Question: Why do we say “Baba did this and Baba did that instead of Baba inspired me to do that?”

Answer: Ego is a very hard thing to let go of. We may do some thing quite small but the ego of it is very big. We need to overcome that. Never have that acceptance that I did this.

There’s a lovely expression that Baba said to someone: Has Baba ever let you down? Anytime there has been anything major happening, help always comes! So it is God’s task, and yes - I have to be accurate. It is God’s responsibility to teach me, and I am accurate in everything, God will do the rest. I cannot be careless and think – I am not responsible. Then God will not do anything. If I remain accurate, God will do His work.

How does God do all the work? Everything is done out of love for God. In Madhuban, they prepared tea for 15-20 thousand people at 3.30 am, and so they have had to be up at 2.30 am, and they are still around after midnight, after Baba leaves. Their co-operation is because of God’s love. The whole management here is a management based on love for God and His task. If it were for a person, no one would do anything, but for God, everyone gives their finger of co-operation.

The whole machinery of Madhuban is a real management out of this world. How all the different departments work is something like seeing God’s magic, as everyone is working out of love for God.
